From time immemorial the ceremonial naming of children has been carried out by the child's family, In the 21st Century many parents want to go back to this earlier tradition and perform their child's naming ceremony themselves. If this is your wish, or where remote location makes it difficult to engage the services of a professional celebrant, or where you just want to have a professionally created ceremony without the big-ticket cost of a professional celebrant to perform it, the script-only DIY Naming Ceremonies service will enable you to have a beautiful and professional naming ceremony.

How the DIY Service works

All script-only ceremonies are provided for the same modest fee and are created based on the information you provide through completing a Ceremony Workbook that will be provided to you on receipt of your prepaid order.

Each ceremony is purpose written and is very personal. The ceremony also reflects the type of ceremony you have chosen – Baby Naming, 1st Birthday, Naming of an older child, or Adult Naming/Re-Naming

All types of families can be accommodated. Regardless of whether you are a married couple, a de facto couple, no longer together, a same-sex couple or a single parent, the ceremony will be tailored to your circumstances.
